

Practice ten IV skills with one arm

Peripheral Venous Catheter Placement Simulator provides full procedural skills from injection to fixing the IV cannula.

Features

1. All training skills for the peripheral venous management
2. Two puncture sites: median antebrachial vein and dorsal veins
3. Practice for the extension of hand and the pressure to veins
4. Durable puncture pad with IV cannula

Confirmation of flash back

Fixing of the puncture site

Application of pressure to vein

Training Skills

- Wrapping with tourniquet
- Confirmation of puncture site
- Sterilization of puncture site
- Puncture with IV cannula
- Confirmation of back flow in puncture
- Application of pressure on vein
- Setting of infusion tube
- Setting of drip infusion
- Fixing of the puncture site
- Injection of simulated medical solution from injection sub-port

Specifications :

Set Includes:	Manikin Size:
1 arm model	W52 x D10 x H10 cm
2 injection pads for dorsal veins of hand	
2 injection pads for median antebrachial vein	Replacement parts:
1 bottle for simulated blood	(11388-200)
1 stand for bottle of simulated blood	2 injection pads for median antebrachial vein
1 infusion set	
1 infusion bag	(11388-300)
1 syringe (50ml)	2 injection pads for dorsal veins of hand
1 plastic beaker	
10 simulated blood sticks (swab type)	(11388-400)
1 carrying bag	10 simulated blood sticks (swab type)
1 instruction manual
